

3D ARCHERY ASSOCIATION OF AUSTRALIA

ABN 37 082 971 439

AFFILIATIONS: INTERNATIONAL BOWHUNTING ORGANISATION
ARCHERY ALLIANCE OF AUSTRALIA

2016-2017 Annual Report Vice President

Where to start... I have been an archer since I was about 10 years old and have shot all forms and styles from longbow, Olympic Recurve to Compound un aid through to my current set up of MBR (Compound with pins) so I fully understand some of the frustrations on and off the field from archers.

I am on this committee represent the members and ensure that all clubs are treated fairly, and what is offered to one club gets offered to all clubs, which has not happened in the past.

I personally contribute to this committee is as follows-

Two years ago to generate extra income into 3DAAA even though I was told no one will be interested. I started a sponsorship program, which continues to grow every month. This is predominantly seen at sanctioned events through sponsored scorecards and banner.

I also resurrected our merchandise side of things with shirts and hats and are looking at more available options.

I am a representative for 3DAAA on the Archery Alliance committee.

I travel regularly to the USA most years and get ideas on how to improve our sport.

I have been helping organize the 2017 nationals at Nambucca Heads.

Most of all I feel I have a strong connection with all archers, which gives me the ability to communicate with our community if allowed.

While I do not Fully agreed with all decisions made by past and current committee members, we are a committee who needs to work together. My only concern is when I am excluded in having a say for our members, which has happened in some recent cases.

Regards

Robert Vayro
